Over the Top by New Year's Is the Plea of Secretary Morgenthau

November 13, 1942

As of today twenty-one million American workers are investing eight per cent of their salary - every pay day - in United States War Savings Bonds. This is a very remarkable tribute to our armed forces who are fighting this war. But this job is only two-thirds accomplished.

There are nine million additional American workers who are not investing in War Bonds every pay day

This appeal is directed to two groups of Americans:

First - the twenty-one million people who are investing eight per cent of their wages. We ask them to increase their investment to ten per cent

Second - the other nine million whom we ask to join the Payroll Savings Plan and to invest ten per cent or more of their earnings.

It is our earnest hope here at the Treasury Department that by New Year's Day thirty million Americans will be investing ten per cent or more of their wages in War Bonds through the Payroll

Mrs. Waltenberger asks that, notwithstanding gas rationing, group- riding may be developed between four or five women from each of our communities, giving at least one day per week, preferably two, to this imperative work. TREASURY ASKS PAPERS TO HELP SELL WAR BONDS

The Secretary of the Treasury Washington November 3, 1942

Dear Publisher:

There are now twenty million American wage-earners regularly investing 8% of their income in War Bonds. This is an achievement in which our nation can take real pride. But the job is not yet

For complete success, it is neces sary that 30 million workers put 10% of their pay into War Bonds This goal is definitely in sight. Your newspaper can be a vital

force in reaching this objective.

Our experience to date shows plainly that to increase War Bond sales, we must increase the number of outlets at which War Bonds are sold.

I am writing this to urge you to become an official issuing agent for War Bonds. The procedure is simple. No collateral is necessary Mechanical routine is not burdensome. If you will sign the enclosed card and return it to me, I will have a representative of the Federal Reserve Bank in your district contact you with the necessary

I am mindful of the magnificent help which the press of America is giving to the War Bond campaign. I want to thank you, now, for the support your newspaper is

giving us.

I will greatly appreciate an early reply.

Sincerely, Henry Morgenthau Jr Secretary of the Treasury

ONE KILLED IN NIGHT CRASH EAST OF LIVERMORE

A car driven by Primo Guiterrez, 25, of Newark was collided with head-on by another car driven by Jesse Duckett, 43, of Pleasanton, Friday night on the Tracy highway two miles east of Livermore.

One of Duckett's passengers was killed and seven men were injured when Duckett is said to have pulled over the center line to pass another car and ran head-on into the Newark Man's car.

Guiterrez' passengers, Jose Es-pinosa, 23; Jesus Dias, 31; and Harold Flores, 21, all of Newark, were all cut and bruised.

Pvt. HAROLD KLEINSASSER of Niles, now at the Staging Area, Fort Lawton, Washington, with the Medical Corps, wrote Tuesday that his name is on the shipping list: probably for Kodiak or Dutch Harbor, Alaska, where he will find other Washington Township men.

NEWARK A.W.S. POST GETS CAR FOR STAFF USE

NEWARK - The Newark airraft warning observation post is the first in Alameda County to be supplied with a car for transporta-tion of observers. The 1940 sedan s traveling about 250 miles a month, according to Kenneth Foster, chief observer.

Request for the car was made when approaching gas rationing threatened to deplete the post's 98 active observers, some of whom travel about 15 miles. The car is furnished by the Fourth Fighter Command, and it is understood a request for similar service by posts in outlying districts has been made. Representatives of the Army, the

district attorney's office and Jack Vieux, township chief observer, addressed a meeting of Newark post observers at the school with a discussion of points pertinent to maintenance of the post. The tower is manned by about 64 observers per week, with several women serving more than two four-hour shifts during the week.

Sixty-one observers have re-ceived their 100-hour pins, and Manuel Brazil has qualified for the 500-hour insignia. Miss Lida Francis is approaching the 400hour mark, and Mrs. Jean Blanjean, assistant to the chief observer, has completed her 300 hours. While most of the observers live in Newark and Centerville, some of them travel from Irvington, Niles and Decoto.

WARM SPRINGS RANCH
WORKER KILLED BY CAR
MILPITAS — Edward Wilson,
about 65, Warm Springs area ranch worker, was killed early Tuesday when he stepped from the curb here into the path of an automo-bile. Louis Santangelo, 28, of 497 North Fifth Street San Jose, a Richmond shipyard worker who was driving the car, said that it was dark and he didn't see Wilson until the car hit him. He was not held.

Word has been receved from Corporal Niels Nielsen who is now stationed in New Guinea.

America needs men who can STAY on the job. 90% of lost time in war work industries is due to sickness—not accidents. This work loss will reach a high peak this winter unless all workers strictly adhere to the rules of health.

Look at these figures! In 1941 illness caused a loss of 100 million man-days of work. Upset stomachs were responsible for the loss of 25 million man-days. The common cold caused a loss of 45 million man-days. Eye strain and ailments caused a loss of 35 million man-days.

Take care of yourself OFF the job—at home as well as on the job. Plan and eat nutritionally balanced meals for body strength and energy. Keep your home heated at healthful temperature, neither stuffy hot or goose-pimply chilly. When you use your eyes give them

adequate light for restful, comfortable seeing. Conserve your health. Do your part in the National Health Protection Program this winter.
